### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jacob G. Weintraub on 2-12-09.

The application has been amended as follows:

**Claim 47:** line 3, after the word 'claim', delete "**450**", insert -- 45 -- in its place.

***Allowable Subject Matter***

The amendment of 2-10-09 has cancelled claims 1-44. New claims 45-47 are pending, and have overcome the previous 103 rejection based on **Brown et. al.**

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The invention is drawn to a quinazoline compound substituted with *morpholino-(CH<sub>2</sub>)<sub>n</sub>-O-* at the 7-position, and *phenyl-C(=O)-NH-phenyl-NH-* at the 4-position. The teaching of **Brown et. al.** (WO'118) discloses a compound in Example 11 which has two differences at the 4- and 7-position. Thus, it does not render obvious the instant compound because there is no motivation for selecting the particular combination of substituents on the quinazoline ring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
